

MUHAMMAD

ALI KAZMI

FULLSTACK DEVELOPER

Address: Hyderabad, Pakistan. Phone: +923003601743

Email: ali.smak099@gmail.com

Github: github.com/kazmiali

Portfolio: kazmiali.github.io

Experience

Freelance dev (Oct 2018 - current)

Offering my services as a MERN stack developer to develop websites and web applications for clients.

Remote Software Developer (2019)

Worked as a software developer for Yousuf group (Ajman).

Developed a PWA tendering portal named tenderdash.com with React, Redux, Firebase.

Key Objectives: Reduced 30% bundle size. Made the web app 2x faster. Developed full-fledged admin panel.

Software Projects

Etimetracking - Time tracker Web app

Link: e-timetracking.herokuapp.com

Developed with a user centered development process, starting with concept and UI/UX design work, creating clean beautiful UIs.

Its a subscription based time tracking software for teams, has a simple time tracker and timesheet for tracking work hours across projects.

A subscriber can have many workspaces and can add his employees and admins, all users can add time entries of what they have worked on. The owner of workspace and admins can print all time entries as pdf or csv. There are many more features.

Utilised: React, Redux, Redux Saqa, Firebase, Node.js, Express, Stripe.

Social Media Web app | DevHub

Link: devhub007.herokuapp.com

Wrote the front-end code using React with Hooks.

Wrote back end with capabilities of adding, removing of post, comment, like, profile info, github repos etc.

Utilised: ES6, React, Redux, Router, Node.js, Express.js, MongoDB

ABOUT ME

Self-taught Web & App Developer, who loves JavaScript and everything about web, with great critical thinking and bug resolution ability as well as excellent problem solving skills.

Independent as well as a team worker. Developed projects from ground up with a user centered development process in mind.

Write maintainable and easy to understand code and love to solve problems.
